SUMMARY

Software Engineering student at Mbarara University of Science and Technology with project experience in Java, Python, SQL, desktop applications and web development. Interested in software development, Artificial Intelligence and Machine Learning. Developing practical skills through coursework, personal projects and independent learning.

EDUCATION

Mbarara University of Science and Technology — Aug 2025 to Dec 2029
Bachelor of Science in Software Engineering · Expected completion: December 2029

St. Balikudembe Secondary School, Kisoga — Jan 2023 to Dec 2024
Uganda Advanced Certificate of Education (UACE)
Physics, Economics and Mathematics; ICT and General Paper.

Mwizi Secondary School — Jan 2018 to Dec 2022
Uganda Certificate of Education (UCE)

PROJECTS

IT Procurement Request System — Academic project
github.com/albanbyamugisha/ITProcurementSystem
Tools: Java, Swing, JDBC and MySQL/MariaDB.
- Built a desktop application for submitting and managing IT equipment and service requests.
- Included user login, request approvals, supplier quotations and database storage.

Personal Media Library — Personal project
Tools: Python, HTML, CSS, JavaScript and JSON.
- Built a local web application for uploading, searching and organizing photos and videos.
- Added albums, duplicate detection, ZIP exports, and backup and recovery features.

SKILLS

Java · **Python** · **SQL and Database Management** · **Object-Oriented Programming** · **Data Structures and Algorithms** · **Git and GitHub** · **Web Development** · **Machine Learning** · **Generative AI and LLMs** · **Prompt Engineering** · **Model Context Protocol (MCP)** · **Problem Solving** · **Teamwork** · **Effective Communication** · **Critical Thinking**
